New Jersey Brokers:

Updates made to Small Group Summary of Benefits & Coverage

We've made some updates to the New Jersey Small Group Summary of Benefits & Coverage (SBC) documents. Specifically, SBCs for the **New Jersey 1-50 Small Group 2014 plans that include out-of-network benefits.**

The "If your child needs dental or eye care", Dental exam section incorrectly noted out-of-network co-insurance. Pediatric Dental exams are not covered out-of-network in New Jersey for Small Group plans and the SBCs have been corrected.

SBCs were included in your clients' renewal packets for January and February renewals. **Beginning with the March renewals, SBCs are no longer included in renewal packets**. We now make them available to you and your clients on aetna.com.

We're sending a letter to those impacted New Jersey plan sponsors. If plan sponsors received/retrieved an SBC for any Small Group plans that included out-of-network benefits, they should access the link for the updated SBC(s).

We ask that you spread the word to your plan sponsors on this important update to their plan documents. Thank you for your continued partnership. If you have any questions about these updates, please contact your local Aetna Account Executive.
