News for All Segments

Local Value Network expansion offers more value

Effective immediately, in addition to Children's Hospital of Philadelphia, our Local Value Network will offer *even more value* as we welcome Summit Medical Group for all segments and Penn Medicine for Small and Large Group segments only. With this addition, our Local Value Network has over 90 percent overlap when compared to the Regional Preferred Network.

For your reference, we have also included this [one-sheet](#) on everything you need to know regarding our Local Value Network.

With these new network enhancements, please look at quoting our Local Value network in place of our Regional Preferred for the right customers to get a better premium price point.

Please note that although Penn providers are in network effective immediately, members will not be able to see this in the provider finder at this time.

If you have any questions, please contact your AmeriHealth New Jersey broker representative.
