Annual notifications to members

Annually, AmeriHealth New Jersey sends members important updates about their health benefits to comply with standards from the National Committee for Quality Accreditation (NCQA) as well as privacy and legal requirements. This year's [notification mailer](#) contains information to help members better understand their plan by alerting them about tools they can use to access health and benefit information, their mastectomy benefits, and how we maintain their privacy.

The mailer also includes a list of more than 25 additional topics that will be housed online at amerihealthnj.com/healtharticles once the mailer goes out. Additionally, members who want printed copies of articles, or cannot access the information online, can request copies by completing and returning the included postage-paid reply card.

The mailer will be sent to commercial group members and individual consumers in the coming days.

If you have any questions, please contact your AmeriHealth New Jersey broker representative.
