## Inaccurate future termination date set for individual members

It has come to our attention a large population of our individual membership were set to a future termination date of August 31. Their coverage will **not** be terminated on August 31 and there has been no impact to their access to care.

Members impacted by the inaccurate future termination date will **only** be aware of this issue if they have logged on to their [ahnj4U.com](http://ahnj4U.com) or [healthcare.gov](http://healthcare.gov) account, or called the Marketplace. These websites will be updated and accurately display the impacted member's coverage by the **first week of August**.

### **Member notification**

We will be sending all impacted members a letter notifying them of this issue, assuring them there will be no access to care issues. Please contact your AmeriHealth New Jersey broker representative for additional information or if you have any questions.
