### **IRS Releases 2014 Publications 502 and 503**

The IRS Recently released Publications 502 and 503, which help taxpayers to understand what qualifies as a medical or dependent care expense for tax purposes.

These Pubs remain largely the same, with minor tweaks accounting for a change in the medical mileage rate, premium tax credits, and elimination of the explanations of the now-expired COBRA premium subsidy that was afforded under ARRA.

Pub 502 is important for anyone with a tax-favored medical account, such as an FSA, HRA, or HSA as it explains what qualifies under I.R.C. Section 213(d), or in plain English - what you can expense under those plans.

Pub 503 is important for anyone participating in a Dependent Care Assistance Program, as it explains which expenses, and under which terms, can be expensed under a Dependent Care Assistance Program.
