

# CIGNA GLOBAL BROKER WEBINAR

Wednesday, February 28

**Raul Gutierrez**  
Senior New  
Business  
Manager CGHB

Dear Valued Partner,

Your clients expect you to offer the best solutions. Are you providing them with the peace of mind that comes from connecting their international business travelers to reliable quality care when the unexpected arises?

While international business travel can be exciting, sometimes it's for the wrong reasons, like an unexpected illness or injury. Equipping international business travelers with reliable access to quality care is an employer's duty of care. Are you currently offering your clients international health insurance business travel plans to globally mobile employees? If not, this 30 minute presentation will allow you to better understand how this growing and lucrative segment can further differentiate you and your business.

Please *join us on February 28*, as Raul Gutierrez of **Cigna Global Health Benefits** will review their global service capabilities.

[Cigna Global Health Benefits](#) offers an assortment of plans to support globally mobile employees on international travel or short-to-long term global assignment. Find out more about the market, the size of the opportunity, our product and services offered to you, at our upcoming webinar.

## WEBINAR AGENDA

> Understand business travel medical
