Horizon Dental offers groups with two to 50 employees more than just clean teeth!

Proper dental care is an important part of employee health. In fact, routine dental exams may detect serious health risks such as diabetes in their earliest stages when they are easiest to treat.

Combining dental with medical could be the difference between early intervention and effective treatment. With Horizon Dental, members have the freedom to receive dental services from any dentist. By choosing dentists who participate with the Horizon DOP, In Network: The Horizon Dental PPO Plan, Out of Network: Members may go to a nonparticipating dentist and may have to pay the dentist’s usual fees and submit claims for reimbursement. There is no deductable, no annual maximum and no waiting period for major services. Out of Network: The plan allows members to use nonparticipating dentists for certain eligible preventive and diagnostic services, such as exams, cleanings and X-rays, as well as amalgam (silver) fillings and space maintainers. However, they may have to pay for any charges above the Horizon Dental PPO Plus Plan allowance at the time of service and submit claims afterwards for reimbursement. There is no out-of-network benefit for remaining basic services and all major or specialty services.

Horizon Dental Companion Plan
- In Network: The plan covers frequently needed, eligible preventive and diagnostic services, such as exams, cleanings and X-rays, as well as amalgam (silver) fillings and space maintainers. However, they may have to pay for any charges above the Horizon Dental PPO Plus Plan allowance at the time of service and submit claims afterwards for reimbursement. There is no out-of-network benefit for remaining basic services and all major or specialty services.
