

Help your clients understand the significance of employee financial wellness

Your clients work with you to continually evaluate their employees' benefits needs, ultimately to foster a rich, productive and satisfying professional culture. Employers are realizing the significance of building a benefits program that supports the financial wellbeing of their employees, since financial stress is a universal issue. You can help them take a fresh look at their approach.

Here's your opportunity to learn more about the:

- Most significant financial worries and concerns of employees and the impact to your clients
- Relevance of financial education and support programs, including its impact to retention and productivity in the workplace
- Growing trend of financial wellness programs and how they are evolving to address the changing needs of the workforce

2018 DMEC Tools & Tactics Webinar presents

Financial Wellness – The hidden cost of employee financial stress
