

## The staffing challenges facing your small business clients – and how you can help

Heading into 2019, 67 percent of small business owners report they're having trouble finding the right employees to fill open positions. As a result, eight in 10 small business owners are working longer hours or taking on additional roles.<sup>1</sup>

For details on these and other timely insights to help guide your consultations with small business clients, explore the latest MetLife and U.S. Chamber of Commerce Small Business Index today.
