

# Good News!!! The Affiliated Physicians and Employers Health Plan (APEHP) medical coverage plan has gotten a whole lot better

...and AT NO ADDITIONAL COST TO YOUR CLIENTS

**Starting July 1, 2016**, APEHP members will be able to access the Cigna National Open Access Plus (OAP) Network. Cigna's OAP network provides members the flexibility and opportunity to choose from a variety of provider options that meet their specific needs.

So.....what does that mean to your clients?

- If a member is a New Jersey Resident:

The network within the state of New Jersey will NOT change. Members will continue to access the SAME QualCare Network that they use today.

Members will have national access to the OAP network for emergency and elective services outside the state of New Jersey.

- If members reside or need to seek care outside of New Jersey:

The Cigna OAP Network will replace the current First Health and GHI networks. As the Cigna OAP is a national expansive network, we do not anticipate there will be significant disruption, however, if members are currently utilizing a provider for active treatment that is in the First Health or GHI network and is not in the Cigna OAP Network, they may be eligible for transitional care benefits. Members can verify if their provider participates in the Cigna OAP network by visiting the following website, <http://sarhcpdir.cigna.com/mcoap>.

If APEHP members believe they have a need for Transitional Care Benefits because their provider is not in the Cigna OAP Network, they can complete and submit a Transitional Care Request Form which is available on our website, <http://apehp.com/forms-documents/>.

Due to the addition of the new network, we will be replacing current ID cards. APEHP will provide members with new ID cards by July 1, 2016.

We are excited about this new addition to our network and are committed to providing the best options for our member's healthcare.
