

Pinnacle Insurance and Financial Services, LLC

Make your Client's Money Work Harder

Do your clients know about the
benefits of annuities?

Before they renew their annual CD out of habit, convenience, or protection of principal, talk to them about the advantages of annuities and how they can get more out of their money!

One of the benefits of an annuity is tax deferral, which makes your client's money work harder by earning interest on the principal, interest on interest, and interest on tax savings!

The Standard created a piece on the benefits of tax deferral, click [here](#) to read.
