

Delta Dental is a proud supporter of Children's Dental Health Month. Our Foundation helps kids' smiles stay healthy for years to come.

Our small business plans help keep kids smiling, too, with 100% coverage on Preventive & Diagnostic services for all plans, and orthodontic coverage available on select plans.

Here are some great talking points for your clients:

- We offer **two fluoride treatments per year** as standard coverage.
- We are one of the first carriers to cover **Silver Diamine Fluoride treatments** (two treatments per tooth each year), which helps high-risk kids stop cavities in their tracks.
- Our **Dual Option** enables groups with 10+ enrolled to offer a plan with orthodontic coverage alongside a less-expensive plan option, allowing members to choose the coverage level their family needs.
- We offer ACA-compliant plans, too, for both small groups and individuals!

Delta Dental's oral health superhero, Captain Supertooth, visited youngsters on Give Kids A Smile Day, a national day of free dental care for children ages 12 and under on Friday, February 1, 2019.
