

## 30 Million+ Reasons to Celebrate National Small Business Week

This week – May 5th - 11th – is National Small Business Week. We want to recognize the impact and accomplishments of America's 30.2 million small businesses.

Their numbers are huge – and so's their influence. They're a major driver of the economy. Small businesses employ far more Americans than large enterprises!

But small businesses face fierce competition for good employees. A dental benefits package can give employers the edge they need.

That makes small business a big opportunity for benefits brokers – and we can help. Delta Dental offers dental benefits programs specially tailored to meet the needs of America's small businesses. Our small business programs are easy to sell and offer attractive commissions, too. Get started at [SellSmiles.com](http://SellSmiles.com).

And be sure to check out how dental benefits can give small businesses a competitive boost in this [blog post](#)!
