

Why should employers offer dental? Because preventive care is 100% covered under most Delta Dental plans, dental issues can be addressed before they become costly problems that require time off. Additionally, signs and symptoms of more than 120 diseases, including diabetes and heart disease, appear in the mouth. Regular dental exams may help dentists detect diseases earlier, potentially allowing for early diagnosis, early treatment and lower healthcare costs.

Let's talk about the value that dental benefits – and Delta Dental – offers your clients.

**Best Regards,**
