

We are excited to finally announce our new partnership with HealthConnect; our 2-49 life voluntary and employer-paid plans are now available for quoting through the HealthConnect platform. It is now available on your quoting portal.

Offering our plans through the HealthConnect tool makes it much easier for our trusted general agent partners to secure a quote and offer dental benefits to their clients.

We continue to look for ways that make it easier for you to help small business owners provide affordable benefits to their employees.
