

Dual Option Now Available for 10-49 Member Groups

We are pleased to announce that, effective immediately, our Small Business Program will allow a **Dual Option** to groups with 10-49 enrolled employees.

This option allows employers the flexibility to offer two plans from the available plan list, so that members have a choice in selecting coverage that better aligns to their specific needs.

We're focused on finding ways to make it easier for you to offer big benefits to small businesses. For more information on this or other ways that we can support your practice, visit [New Jersey Small Business Program area of our website](#), or contact your General Agent.
