## Get Covered NJ: Important Information for Agent and Broker Certification Training!

This year, GetCoveredNJ is using the State of New Jersey's Learning Management System (NJ LMS) for certification training and testing. All existing brokers and agents will receive a certification training email assignment from the NJ LMS. You will need to pass the GetCoveredNJ training, not the CMS training, in order to assist consumers on the State-based Marketplace.

As GetCoveredNJ is transition to the State-based Marketplace, they want to make sure training is tailored for New Jersey. They have created a hybrid, engaging training curriculum that will equip brokers and agents with the knowledge and tools to help consumers understand and enroll in comprehensive coverage through the new Get Covered New Jersey Marketplace.

The GetCoveredNJ Assistants Certification Training will consist of three (3) mandatory online training modules. Each module will be followed by an exam. All agents and brokers need to pass each exam with a score of 80 percent or higher. In addition to three mandatory online training modules, agents and brokers are required to attend five (5) weekly Continued Learning Sessions (webinars) of their choice provided in the weeks leading up to, and during, Open Enrollment. All Continued Learning Sessions will be provided in a live webinar session and will remain on the NJ LMS for Assistants to review at their convenience. All agents and brokers are required to attend or review the first two Continued Learning Sessions:

- Welcome to Get Covered New Jersey, the week of September 21, 2020
- Get Covered New Jersey Eligibility Deep Dive, the week of September 28, 2020

In order to assist consumers beginning November 1, 2020, all online training modules and review of the first two Continued Learning Sessions must be complete by **October 15, 2020**. The additional three Continued Learning Sessions must be completed by

November 30, 2020. Failure to attend or review the additional Continued Learning Sessions by November 30, 2020 will result in desertification.
