

Agents & Brokers: Selling in the Marketplace

HealthCare.gov

New Resource Catalog

The first quarterly Centers for Medicare & Medicaid Services (CMS) Marketplace Agent and Broker Resource Catalog is now online!

This catalog, which is part of CMS' ongoing effort to meet the informational and educational needs of agents and brokers, contains references to online resources, brief descriptions of offerings from the Agent and Broker [General Resource webpage](#), links to informative videos and webinars, and much more!

The catalog includes more than 100 listings on topics popular with agents and brokers, such as enhanced direct enrollment, compliance, Help On Demand, and Marketplace registration and training, to name a few. CMS will release an updated catalog quarterly, as new resources become available.

Be sure to take a look at the catalog today!
