

Introduction to Easecentral

Webinars

We always strive to provide our brokers with best in class technology and a responsive and proactive support team to help you achieve your goals. Traditionally, our tech platform has been broker-facing and geared to streamline day to day operations in your offices.

Now we are pleased to announce that we are adding EaseCentral to our technology platform. This enhancement will allow our broker partners to provide a Benefit Administration System to their groups that will be branded specifically to each employer client.

We will be holding webinars to go through the technology and the benefits it can provide you and your clients - as we approach 4th Quarter and 1/1 renewals.

Monday, November 13th at 1 PM
