

## The Marketplace Registration/Training System Has New Features!

Registration for plan year 2019 is coming soon! This year, when you sign in to complete registration and training, you will notice a few changes to the Marketplace Learning Management System (MLMS). In addition to an improved look and feel, there are various new features, including:

- New half-hour training for returning agents and brokers that fulfills the Individual Marketplace training requirement
- Updated MLMS profile options so you can determine how your contact information will be displayed in [Find Local Help](#) and [Help On Demand](#)
- New address validation function that allows you to correct any errors when first entering your MLMS profile address, thus reducing issues with the address listed in Find Local Help

If you have questions about the MLMS enhancements, reach out to the **Agent/Broker Email Help Desk** at [FFMProducer-AssisterHelpDesk@cms.hhs.gov](mailto:FFMProducer-AssisterHelpDesk@cms.hhs.gov).
