

New for 4th Quarter - Enhanced Email Capabilites!

One of the most frustrating things in the world is needing an piece of information and not being able to access it easily because it has to be sent securely. We get it!

We have the Broker Message Center that you can access through your dashboard or your Go Martin app, but sometimes even that is not convenient enough. To try to make it easier to access the information you need quickly, we have added another method to communicate securely with our office.

You will still be able to access information via your Broker Message Center - we have just added another way to for you to get your clients the information they need.

Using this is simple! Just open the attachment on the secure message you receive from our office and have a password sent to you. It is pretty intuitive, but to make it easier we have created instructions you can reference by [clicking here](#).

You will see this change from our office starting tomorrow. If you have any questions or run into any issues, please call or contact brokersupport@martinins.com.
