Save the Date for

CJAHU's Annual March Madness Event!

Featuring Peter Tonna,

Regional Sales Manager for MagnaCare.

Minimum Essential Coverage plans are a hot topic today!

These products are also great business generators for brokers. Whatever your opinion of the ACA, one thing is clear: it is good for business if there is a legal requirement to buy what you are selling! These MEC plans present an opportunity to bring new customers into our market as they are geared at uninsured and underinsured companies.

At our March Madness event, Peter will be teaching a one hour CE class on Self- Funding 101, including the basics of a self funding platform, eligibility and target markets, and MEC plans.

Peter Tonna, currently serves as Regional Sales Manager for MagnaCare, a network and

health plan administrator headquartered in New York. Peter has worked for MagnaCare since 2007. He started in the health insurance industry at HIP Health Plan of NY's Labor and Government Sales department. Peter currently serves as Vice-Chairman of Huntington's Zoning Board of Appeals and is a part of many leadership organizations within his community. He holds a B.A. in philosophy from SUNY Oneonta. Peter currently lives in Huntington Station, NY with his wife Elena and three children.

CE Credits and Prize giveways will be included!
