

Oscar wanted to share an update about their small group plan portfolio in New Jersey. Beginning with November 1st effective dates, Oscar will be streamlining their plan portfolio to focus on four small group plans in New Jersey. In 2019, they will add a fifth plan to their portfolio.

For more information on the specific plans that will not be available beginning on November 1, 2018 (and will not be renewed beginning January 1, 2019), please contact your Sales Executive.

An updated version of their plan portfolio is available [on their broker website](#). All these plans include their unique member benefits: free 24/7 telemedicine, dedicated Concierge Teams, and easy-to-use tools for improved navigation and support. Updated versions of their paper applications are available [here](#).

Please note the following:

- If you have sales in progress for any of the plans that will be unavailable as of November 1, 2018 (and not renewed beginning January 1, 2019), you may proceed with these sales and enroll these groups until October 15, 2018. Beginning November 1, 2018, those plans will no longer be offered nor marketed and you will be unable to enroll these groups on Oscar's broker portal.
- Oscar's plan portfolio will be updated in HealthConnect and other third-party quoting platforms so that only available plans will appear there.
- This change does not impact any in-force small group plans, which will continue to run through the end of their 12-month contract.
- Notices will be mailed to policyholders whose plans will be affected by this withdrawal as required by New Jersey law.
- This change does not impact Oscar's individual and family plans, where they will offer a similar plan portfolio to last year.

Please also note that this nonrenewal process follows all applicable legal requirements and is permitted under the authority set forth in N.J.A.C. 11:21-16.5.

Oscar worked hard over the last year to enter the New Jersey small group market and are committed to serving New Jersey's small businesses with this updated portfolio of plans. They are also excited to grow membership in their individual product line in 2019.
