Dental insurance

# Discover what we can do for you

Capabilities overview.

## Dental insurance

# A healthy choice for your business.

For employers, providing the right benefits at a reasonable cost is getting more challenging every day. With UnitedHealthcare, you can get the flexibility you need, while providing access to the quality care your employees want.

We offer a breadth of plan options and some of the largest national networks. With our full suite of medical and specialty benefits plans, we can take an integrated approach to your health benefits, serving your employees in a holistic way. Plus, depending on group size and employer contribution level, your business may enjoy savings by bundling your benefits packages. Your broker or UnitedHealthcare representative can give you details.

### Our networks offer more choices.

With UnitedHealthcare, you enjoy some of the largest national networks.

### More plans, more providers.

We offer a range of flexible plans to meet the needs of any kind of company. Whether you're big or small, we can help you strike the right balance between offering choices and controlling costs. You decide how much to contribute financially and how much of the cost to share with your employees. Our dental plan choices include:

- PPO (Preferred Provider Organization)
- Gateway PPO (a PPO with a cost-saving plan design)
- Indemnity
- INO (In-Network Only)
- Managed Care
  - Direct Compensation Managed Care
  - DHMO
- Value Dental (in select areas)

For each product, there is a wide array of plan designs; we can help you choose the one that best meets your group's needs.

Chances are good that your employees' dentists are already included in our networks. If they're not, your employees can use the Find a Dentist tool on [myuhc.com](https://myuhc.com) or call Customer Care to find a local dentist who can meet their needs.

## More convenience.

When you purchase your medical and dental plans from UnitedHealthcare, you get the added bonus of a streamlined administration process. That means one number to call, one bill to pay and one efficient implementation process. Your employees save time, too, with access to online tools that help them easily manage their plan benefits. At [myuhc.com](https://myuhc.com), they can find a dentist, review their coverage details, check a claim and much more. In addition, they can use the innovative Dental Cost Calculator<sup>1</sup> to see what their out-of-pocket expenses will be ahead of time.

## More value.

Our goal is to strengthen your business by improving the overall health of your workforce. Because we offer both medical and specialty benefits, we have the capability to use our data resources to see how an employee's dental issues may be affecting their overall health, allowing us to offer helpful information and support. In addition, we offer special preventive benefits with many of our dental plans at no added cost:

- **Pregnancy dental benefit:** We cover extra visits for dental cleanings and gum treatments, if needed, during pregnancy and the first three months after baby is born. That's because a woman is more likely to develop dental disease during this time.<sup>2</sup>
- **Annual oral cancer screenings** for all adult patients

## More complete.

Most important, when you choose a UnitedHealthcare dental plan, you can count on our distinctive integrated approach to dental care. We look at your employees' oral health in the context of their overall health and wellness. Instead of taking a limited, narrow approach, we serve our members in a holistic way, offering health care benefits that serve their broader needs — medical, dental and more.
