

# COVID-19 update

Get the latest information from UnitedHealthcare

## Help your clients prepare to return to the worksite

As employers across the country prepare to return to their worksites, careful and deliberate planning can help make it a successful transition. UnitedHealthcare is ready to help clients. We've recently released a Return to Worksite Toolkit with valuable resources that can help your clients answer their biggest transition questions. The toolkit includes:

- **COVID-19 testing updates:** The latest information about the facts of COVID-19 testing.
- **State-specific information:** Maps with links to websites and local public health information.
- **Readiness information:** Key considerations as clients develop their transition strategies.

Brokers can access these and other resources in the toolkit by logging in to [United eServices®](#). Clients also can access via [Employer eServices®](#). For Oxford brokers, the materials are available on [oxfordhealth.com](#) (New York and New Jersey) and [uhceservices.com](#) (Connecticut).

Please reach out to your UnitedHealthcare representative for more information. Brokers also can access answers to frequently asked questions on COVID-19 via regular updates to the [Broker section](#) of [uhc.com](#).
