**Announcing the UnitedHealthcare Community Care Award**  
Help improve health and wellness in Westchester County

UnitedHealthcare is proud to announce a call for entries for our Community Care Award for small businesses in Westchester County.

We will award **\$10,000 in funding** to the small business with the next big idea for enhancing community health and wellness.

Small businesses can apply online at [uhc.com/communitycare](http://uhc.com/communitycare).

**Small businesses can submit their idea in 300 words or less.**

**The top 5 will be invited to a live pitch event.**

**The winner will receive \$10,000 for a community project.**

We'll select the top five ideas based on criteria such as community impact and creativity. The top five applicants will be invited to a live pitch event in September where the winner will be selected by a panel of judges from Westchester's business community.

Small businesses across the country, and especially in Westchester, are driving innovation that's sparking positive change. That's why UnitedHealthcare is committed to partnering with small businesses for the long-haul to improve health and wellness.

Our mission is to help people live healthier lives and the Community Care Award for small businesses is one small way we're doing just that.
