Now is a great time to explore your options with Oxford

We know this is a busy time of year for you, with many clients shopping for a new health plan. With the recent changes in the market, your clients enrolled in CareConnectSM plans may be shopping sooner than you originally anticipated.

To help you successfully transition your New York small group (1-100) clients into a plan that helps fit their needs, we have developed an **Oxford Plan Comparison Guide** that compares popular CareConnect plans to similar Oxford plans with Metro, Liberty and Freedom Network options. All plan comparisons include Q4 '17 rates.

As we've said before, we strive to be your long-term carrier partner and are committed to small business. Getting a quote is easy. Contact your Account Executive or General Agent to get started.

And don't forget to get an Oxford Metro Network quote. It may be just what your clients are looking for.
