

# Changes to Your 2018 ACA Fees

## 2018 ACA Fees

Effective January 1, 2014, the Affordable Care Act (ACA) created an annual fee on certain health insurance providers often referred to as Health Insurer Fee (HIF). This fee was suspended for 2017.

As of January 1, 2018 the HIF will be effective again. **These fees are built into your current healthcare fees and not listed as an additional charge on your monthly healthcare invoice.** You do not need to take any action. APEHP will file these fees on your behalf.

*Note: Please note that the HIF will not have an affect your monthly healthcare fee.*
